Note: If you haven't already, register now for our free webinar on April 16th. Welcome to another edition of the On Demand Webinars. In the past few weeks we have put together

several webinars on a variety of topics related to treating patients with substance use disorders. This month we are focusing on the unique challenges of managing the patient who is prescribed buprenorphine, also known as Suboxone®. In this webinar we will discuss the various medical and psychosocial factors that need to be considered when prescribing buprenorphine for patients with a history of substance use disorder.

We will review the medical indications for buprenorphine,

including the risk and benefits associated with Suboxone®[®], and will demonstrate how to address the more common pharmacological and psychosocial challenges that arise when prescribing this medication. Dr. Elmer will demonstrate strategies
