## Xplorer

A light and fast explorer for Windows Xplorer Key Features: Use Multi-cursors like the Windows 7 Explorer Navigate through all files Preview images, videos, music and documents Basic Usage To use Xplorer, simply drag and drop your files onto it from any other explorer or file manager. It will open in a tabbed explorer style where it will load up your files. Multi-cursors: Xplorer supports multiple cursors. Drag and drop multiple files onto the app and it will open each in a different tab. This feature is similar to Windows 7 explorer. Navigating through your files: Xplorer allows you to use the Windows 7 style folder browsing. Simply hit up and down on your keyboard to navigate through your folders. Previewing Media Files: Files can be previewed right in the app. Just hit the space bar to preview all files in the current folder. The app will only show previews of the first 400MB of your files, so you will need to close the app to preview any more files. Opening documents: You can use Xplorer to open documents such as pdfs, images, and.txt files. What's New Xplorer is not only a great file explorer, it also comes with a plethora of other features. Here are a few of the newest features in the app: Search to filter through your files Create, edit and delete folders Create and delete Virtual folders Access your whole computer from the app Works on Mac and Linux (only works on Windows at the moment) Lots of bug fixes and other improvements What is missing: No image editing capabilities No audio editing capabilities No video editing capabilities No functions that are not standard with Windows Explorer Latest Development This application is still in development. Some features are missing and need to be implemented. We are also getting ready to move to a new Operating System and are planning to replace Electron with Nativescript for our apps. Disclaimer Xplorer is still in development. The app is not meant for a production environment and is not recommended for production. Use it at your own risk. Support Xplorer is still in development. If you have any questions or need help please open a support ticket. Known Bugs There are some known bugs with this app. Any issues you encounter please file a ticket. UpperCASE Solutions
